EXPERIENCE

UX Design Intern · HARMAN International

Nov 2025 – Jan 2026

- Improved developer handoff efficiency by **30%** by building a Figma design system (spacing tokens, colour system, typography scale, component library, interactive states) for in-vehicle infotainment interfaces across multiple OEM brands.
- Led interaction design and information architecture for dashboard and mobile companion platforms with full WCAG 2.1 accessibility compliance, collaborating daily with frontend engineers in Agile sprints.

Lead Product Designer & Scrum Master · University of Melbourne Capstone — Vouchr

Jul 2025 – Nov 2025

- Increased task-completion rate by **22%** by leading user research (interviews, personas, journey mapping, user flows) and iterating high-fidelity Figma prototypes through usability testing and heuristic evaluation with a 5-person cross-functional team.
- Delivered the full product from discovery to deployment as Scrum Master, running sprint planning, backlog grooming, and stakeholder presentations in Jira, while building core features in MERN stack and SQL.

Science Ambassador & Student Consultant · University of Melbourne

Apr 2025 – Present

- Achieved **90% conversion rate** from conditional to unconditional offers across 200+ prospective South Asian students and families through 1:1 consultations and group briefings.
- Used Salesforce, Microsoft Azure, and Power BI to track engagement and conversion funnels, identifying drop-off points and improving follow-up timing across the student pipeline.

Financial Analytics Intern · Ernst & Young LLP

Nov 2024 – Feb 2025

- Achieved **97% forecasting accuracy** by building LSTM and XGBoost models with NLP sentiment pipelines across financial news and social data; outputs adopted as standard operating procedure by 2 client investment firms in the Middle East.
- Reduced analyst workload by **~60%** by automating data processing pipelines in Python and SQL; supported the IPO advisory team on financial modelling and client deliverables.

UX Designer — Brand Design · Melbourne BioInnovation

Jun 2024 – May 2025

- Grew community engagement by **37%** by building a WCAG-compliant design system and brand identity for an assistive hardware product, handed off directly to hardware engineers; research included clinician and patient interviews, persona development, and user flow mapping for a real-time feedback UI.

UI/UX Design Intern · Matrix Freight Forwarding Systems

May – Sep 2023

- Drove **28% organic traffic growth** and **15% fewer support queries** by designing wireframes, user flows, and high-fidelity mockups from eye-tracking data; built responsive HTML/CSS frontend and Figma component library for booking, tracking, and notification flows.

SKILLS

Design Figma · Adobe CC · Miro · Wireframing · Prototyping · Interaction Design · Visual Design · Mobile Design · Responsive Design · User Journey Mapping · Information Architecture · Design Thinking · User Interviews · Usability Testing · Heuristic Evaluation · Persona Development · A/B Testing

Engineering React · TypeScript · Node.js · Python · SQL · HTML · CSS · JavaScript · Git · Design Systems · Component Libraries · Design Tokens · WCAG 2.1 · Accessible Design · Design Handoff

Product Agile/Scrum · Sprint Planning · Backlog Grooming · Stakeholder Management · Jira · Notion · Salesforce · Power BI · Azure

PROJECTS

Exousia — Piezoelectric Energy Floor

FICCI Arise Winner · TGELF Youth India STEM Product

Piezoelectric flooring system that harvests electricity from foot traffic, built for high-footfall spaces like school corridors. Built the hardware (Arduino, Fusion 360), PCB layout, brand identity, Figma design system, and investor pitch materials, powering 25+ classrooms from foot traffic alone.

Vouchr — University of Melbourne Capstone

Lead Product Designer & Scrum Master · MERN Stack · LLM Integration

Full-stack gifting platform built end-to-end across a 5-person cross-functional team. Led product design (research, personas, high-fidelity Figma prototypes, usability testing) and engineering (MERN stack, LLM integration) while running Agile ceremonies as Scrum Master. Increased task-completion rate by 22%.

EDUCATION

BSc Computing & Software Systems | Psychology Minor · University of Melbourne

Jul 2023 – Jul 2026

CS Coursework Foundations of Computing · Foundations of Algorithms · Database Systems · Object-Oriented Software Development · Algorithms & Data Structures · Software Modelling & Design · Elements of Data Processing · Models of Computation · IT Project · Computer Systems

Psychology Coursework Mind, Brain & Behaviour 1 · Personality and Social Psychology · Research Methods for Human Inquiry

Leadership Competitions Lead, CISSA · Innovation Lead, Google Dev Club · Notion Campus Leader · Committee Member, Graphic Design Club · Cricket Captain · Barista

Mentorship & Outreach Peer Mentor · Science Ambassador · Designer (Social Media & Livery), Melbourne University Racing
